

## FROM OUR HOME TO YOUR HOME

July - August 2008

### July 2008 - Touchdown

Here we are, back in Australia again.

We have now completed four years at Black Forest Academy, Germany. Before we take off again we will be enjoying some rest and restoration, and time with our families. Towards the end of the year we will go to Wycliffe Australia in Melbourne for re-assignment in the Pacific area. At this time our thinking is, that we will go to Ukarumpa International School in New Guinea, but we are not sure yet. You will be the first to know.

During these 4-6 months we will be house sitting in Brisbane and spending lots of time with our family. Morgan & Amanda are in the process of moving into their new home. They are keeping well and advancing in their chosen careers.

Kelly and David are very busy young parents with 2 little ones, Claire 2 and Oliver 5 months. Thank you for praying for Oliver as he has improved a little bit in his health. He is still struggling physically and will be having an endoscopy soon as part of the diagnostic process. Please keep this little family in your prayers as both Kelly and David are very sleep deprived.

### A Special Lad

Over the last three school years I, (Toni) have had the special pleasure of tutoring David, a young Swiss lad for an hour a day. He started 2005 in Grade 10, fairly shy with only grade 5 English, so I did English Second Language studies with him. After starting grade 11 he could not quite keep up with the class, so I became his grade 11 English teacher.

During that year he made tremendous progress, but still struggled with writing essays. When entering grade 12 it was decided that I would teach him Business English. After a slow start he really began to strive, thrive and grow, not only academically, but also physically,

becoming quite tall. Here he is at graduation. "I am proud of you David, may you continue to grow, mature and bloom in your future career"
